

# Ağaçlı to offer for Russian market

*Automotive logistics provider Ağaçlı Group, founded Ağaçlı Manufacture Group in 1995 to produce automotive trailers and spare parts. The groups targets Russia and CIS countries for trailer exports*

Adnan Ağaçlı

Ağaçlı Group, leading automotive logistics services provider and trailers and spare parts produces targets to enlarge services to Russia and CIS countries, Adnan Ağaçlı, the General Manager of the company said to UTA Lojistik.

"Ağaçlı Manufacture Group's

main target is to involve in international markets. Our target markets are especially Russia and other CIS countries where we observe a significant development in logistics services for automotive industry. We started the required homologation works in Russia, and we apply this to all models" Adnan Ağaçlı said.

The groups logistics company Ağaçlı Petrol Ltd., founded in 1972 and celebrating the 35th year, has always been involved serving to the Turkish automotive industry as a integrated logistics solutions provider. "We are the foremost carrier of Ford Otosan, the number one car and light commercial vehicles producer and exporter of Turkey. In addition, we deal with the shipment of export automotive products to of Ford, Mercedes and the other brands to the destination significantly in Asia and in Europe . Our experience in automotive logistics makes our products handy for logistics companies" proudly says Adnan Ağaçlı. Ağaçlı Group, extended his services from the automotive industry through other automotive logistics solutions providers when fo-

unded Ağaçlı Manufacture Group in 1995, the automotive trailers and spare parts producer company. However the company also produces all kind of trailers at the 15000 square meter closed production plant in Ankara. Adnan Ağaçlı trusts in his experience in logistics services and Research and development activities in the highly competitive environment of trailer industry: "As the truck production's raise, trailer and equipments production industry found itself in a poisonous competition. In the highly competitive environment, diversification and innovation in products line becomes almost imperative. We always monitor the development in the market and allocate considerable resources to the R&D of new products. We do trust in know-how and experience of our hardworking R&D team. The principal advantage that we have a product line which solves the problems of sector 100 percent" resumes Adnan Ağaçlı.

## AĞAÇLI TREYLER İHRAÇ EDECEK

Otomotiv lojistiği denince ilk aklı gelen isimlerden olan Ağaçlı Petrol, 1995'ten beri araç treyleri ve yedek parçaları üretimini de gerçekleştiriyor. Ankara'daki 15 bin metre karelik kapalı tesisinde üretimini gerçekleştiren şirket dış pazarlara da açılmaya hazırlanıyor. Şirketin Yönetim Kurulu Başkanı Adnan Ağaçlı hedeflerinin otomotiv sektörü gittikçe gelişen Rusya ve BDT ülkelerine ihracatta bulunmak olduğunu söylüyor. Petrol dağıtımı ve otomotiv distribütörlüğü şirketleri de bulunan Ağaçlı grup bu yıl 35'inci kuruluş yılını kutluyor.
